THE KEY TO SUCCESS

PROFESSIONAL SCRUM MASTER I
"Leading The team to Success: One Sprint at a Time"

In an evolving world of unpredictable project and ever-changing client expectations, transparency and agility will be your keys to unlocking your team's true potential to meet these demands. At the heart of every Scrum team lives the Scrum Master and with the right set of skills and competencies, the Professional Scrum Master can wield these keys efficiently and lead the team to project success effectively.

The 2-day training will help you become the **Professional Scrum Master** that you need to be in order to be the servant leader that your team requires. You will learn the beginnings of Scrum and why it has come to fruition, learn how to leverage Scrum against the traditional Waterfall method, implement Scrum at a flexible yet enterprise level, remove team impediments via conflict resolution, how to manage the team and synchronizing team delegation with the product backlog, facilitate daily scrum meets, oversee the scrum workflow and foster team dynamics and motivation to ultimately arrive at the project goal one sprint at a time.
